*For two years, I was there in AA. Speaking about my experience it was very great, those extra lectures, weekly test, special attention on each n every student is the best thing there. All the teachers were so helpful. I'm extremely happy that I took admission in Atulya.*

*Thank you! Team ATULYA*

*I was there in AA for just 1 yr but that one year was like very very special to me because that year was crucial to me and I'm very happy that my decision was right to take admission in AA .Each & every teacher are so humble and supportive to all their student's. They never left any chance to help their student though it would be studies,test, lecture's ,activities etc.... The reason of achieving these great marks is just the efforts of all the AA teacher's...I regret that I should have taken admission before, still I'm very glad & happy ... Thank you AA for everything you gave me !!*
